SUMMARY

Results-driven Software Engineer with 3+ years of experience in developing AI-powered applications, automation solutions, and scalable web interfaces using Python, SQL, React.js, and REST APIs. Skilled in building customer-centric solutions, optimizing system performance, and troubleshooting complex technical issues. Strong analytical and problem-solving abilities with a focus on delivering reliable, production-ready software solutions.

EXPERIENCE

Senior Software Engineer

12/2022 - Present

Capgemini Technology Services India LTD.

Bengaluru, KA

- Engineered an AI-powered chatbot solution using client-specific datasets, automating nearly 65–75% of repetitive customer queries and reducing average response time from ~8 minutes to under a minute.
- Trained and optimized NLP/ML models on 15k+ historical conversation records, achieving approximately 80–88% intent recognition accuracy for context-aware interactions
- Developed a responsive front-end interface using React.js, HTML, and CSS, improving customer engagement metrics by ~30% and reducing user drop-off during interactions
- Integrated frontend modules with backend microservices via REST APIs, maintaining sub-3-second response latency for real-time interactions
- Architected a modular and extensible system design that reduced feature deployment effort by nearly 40% and simplified future enhancements
- Executed extensive functional and edge-case testing across 150+ conversational workflows, reducing production issues by approximately 50%

Internship Experience

12/2022 – 03/2023

Capgemini Technology Services India LTD.

Bengaluru, KA

- Designed and developed a robust job portal front-end using React, HTML, and CSS
- Enabled seamless interaction for job seekers to apply for roles and for companies to discover qualified candidates

EDUCATION

Sikkim Manipal Institute of Technology

Bachelor of Technology, Electronics and Communication Engineering

Majitar, Sikkim, India

July 2018 – Oct. 2022

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, SQL

Frameworks: React, Node.js, Flask, Material-UI, Fast API

Frontend Technologies: React.js, HTML5, CSS3, Material UI

Backend Technologies & Frameworks: Node.js, Flask, FastAPI, REST APIs, JWT Authentication

Developer Tools & Platforms: Git, Docker, AWS, Google Cloud Platform (GCP), CI/CD (GitHub Actions, Jenkins, GitLab CI), Kubernetes, Visual Studio Code, Visual Studio, PyCharm

Databases: PostgreSQL, Microsoft SQL Server, MongoDB, Pinecone, ChromaDB, FAISS

Data Science & Machine Learning Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Generative AI & LLM Technologies: Retrieval-Augmented Generation (RAG), Prompt Engineering, LangGraph, LangChain, CrewAI, Hugging Face Transformers, Embeddings, Natural Language Processing (NLP)

Deep Learning: TensorFlow, Keras, CNN, PyTorch

CERTIFICATIONS

AWS Certified Cloud Practitioner
